Lift & Slide Patio Doors BSC94

The KAT Aluminium Lift & Slide Patio Door is a multi-configuration system that allows you to specify and design the most suitable solution for your project.

The sliding glazed panels offer the optimum solution for allowing light in to the room space, with the minimum of interruption from aluminium frame. The sliding panel door operates within its' own track so no space is required outside or inside, immediately adjacent to the doors. The system is available with fixed lights or sliding panels and is manufactured with the highest quality fittings ensuring reliability and comfortable operation.
