

KAT's Super-Sized Sliding Patio Doors can be made much wider and taller than a Bifolding Door, allowing you to enjoy uninterrupted views, with sash panels up to 3 metres wide and 3 metres high. All this, whilst offering industry leading weather ratings to keep your home warm.

Design your own door incorporating either 2, 3 or 4 sashes on a twin track or 3 or 6 sashes on a triple track, with each sash gliding smoothly operated by a Lift & Slide Patio door handle.

KAT Windows & Doors are installed by a select network of UK installers. All enclosed photography is subject to third party copyright and must not be used outside of this brochure.

In keeping with market trends and improvements we reserve the right to change specifications and hardware accordingly and without notice. Some fittings may therefore differ slightly from those on the images shown at the time of print.
